FREE PLAN – SE5A SKYWRITER PEANUT FOAMIE
PLAN 727 IN AEROMODELLER 1036 SEPTEMBER 2023

13" Span Indoor Foamie Designed by Chris Brainwood
All woods balsa, basic construction from 1.5mm Wallfoam

Build the fuselage with the two sides and formers F1 and F2, then add the lower fuselage. Cut here to allow the lower wing to be fitted. Add the cabane strut assembly then finally the curved decking

Build wings flat, then cut the spar at the dihedral break and add a slither of balsa to give the correct dihedral - 1/2" at the tip

1/32" x 1/8" Mainspar
